PROFESSIONAL SUMMARY

- Recent **First-Class Honours Master of Information Technology** graduate from the University of Waikato.
- **2+ years** of **full-stack web development** experience in **JavaScript, delivering responsive, scalable web applications and real-time features in Agile environments** with clean code practices and interest in **cloud and AI integration**.
- Built secure login systems integrated with real-time databases through a recent **Software Development Internship** at the University of Waikato's Auckland ICT Graduate School and prior remote roles.
- **1+ year** at Mitre 10 MEGA Hamilton, developing **time management, pressure-handling, customer/people skills, and teamwork in a fast-paced environment**.
- Proven leadership from senior school roles and cricket, committed to **teamwork, community impact, sustainability**, and seeking to leverage AI/cloud expertise in innovative NZ tech teams.

TECHNICAL SKILLS

- Frontend: **ReactJS, Next.js, TypeScript, HTML, CSS, Redux, Context API, Tailwind CSS, Material UI**.
- Backend & API: **NestJS, Node.js, Python, Java, C#, REST APIs, Axios, GraphQL, Prisma**.
- Database: **MySQL, MongoDB, Firestore, PostgreSQL.**
- Cloud**: Linux, AWS (EC2, Cognito, DynamoDB, Lambda, S3), Firebase (Serverless)**.
- Deployment & Testing: **Vercel, Git, CI/CD, Jest, Postman, Npm, Vite**
- Tools & Methodologies: **Agile/ Scrum, GitHub, Figma, Trello, Notion, Slack, Miro**.

RELEVANT EXPERIENCE

Software Development Intern | Auckland ICT Graduate School, NZ 2025

- Configured SVN and Linux-based Virtual Machine environments, troubleshooting compilation errors, disk space issues, and authentication problems through systematic debugging.
- Implemented Single Sign-on for the Greenstone Digital Library in the Te Rā Māori archive project, enabling secure role-based access to high-resolution images, 3D models, and documents.
- Collaborated in an Agile team using Trello, adapting to project pivots and delays while improving problem-solving and communication in a New Zealand professional setting.

Software Developer | Digital Yogin SRL, Italy (Remote) 2023

- Delivered multiple full-stack web applications in Agile workflows from requirements through design, implementation, and production deployment, ensuring scalable and reliable solutions.
- Collaborated with project managers and designers via tools such as Figma, Trello, and Notion to plan features, fix bugs, and deliver weekly releases while planning and reviewing sprints.
- Designed and managed scalable databases with real-time Firestore (NoSQL), MongoDB and MySQL, ensuring high-performance and efficient data handling.
- Contributed to React Native and Android components and API integrations, delivering responsive solutions with smooth Git-based team collaboration.

Software Developer Intern | Mediio Ltd, South Korea (Remote) 2021

- Developed responsive online doctor-patient consultation platform (Medigrant) using ReactJS, Material UI, GraphQL, Node.js, Figma, and AWS S3.
- Delivered company website and project features under strict deadlines, incorporating peer feedback for optimized user experience.
- Supported API integrations and troubleshooting, gaining foundational skills in full-stack tools and real-time data handling.

PROJECT PORTFOLIO

"Portfolio" Web Application | Personal Project

Goal : Showcase personal projects and skills with a modern, responsive interface.

Platform : NextJS, ReactJS, TypeScript, LeafletJS, ThreeJS.

Achievements : Deployed on Vercel, featuring interactive maps and 3D visualizations, demonstrating foundational deployment skills and a commitment to learning.

"Pet Social Media" Web Application | University of Waikato, Master's Project

Goal : Build a platform for pet owners to connect, share content, and chat in real-time.

Platform : NextJS, ReactJS, TypeScript, NestJS, MongoDB Atlas, Socket.io.

Achievements : Delivered a secure, user-friendly application with authentication and real-time features in 12 weeks, collaborating with peers using Agile task management tools to meet deadlines.

"eVoting System" | University of Waikato, Master's Group Project

Goal : Create a secure, scalable online voting system for NZ elections.

Platform : NextJS, ReactJS, TypeScript, AWS (EC2, Cognito, DynamoDB, Lambda, SQS).

Achievements : Led Web Application module, delivering a high-performance system in 10 weeks. using Agile task management tools (GitHub, Microsoft Loop) to overcome coordination challenges.

OTHER EXPERIENCE

Web Orders/ Customer Service Desk/ Retail Assistant | Mitre 10 MEGA Hamilton, New Zealand Present

- Delivered exceptional customer service across the Customer Service Desk, web orders processing, and shop floor. Handled daily customer inquiries, resolved online order queries (including follow-up calls), and assisted customers in-store, building strong interpersonal skills and the ability to perform under pressure.
- Resolved daily technical issues (POS system glitches, scanner failures) through quick troubleshooting, building skills in real-time problem-solving applicable to software debugging.
- Managed inventory tracking and customer data handling, gaining insights into operational efficiency that inform user-centric web development for retail/tech integrations.

After School Program Facilitator (Volunteer) | Efalata Trust, Hamilton, New Zealand 2024

- Tutored students in English and Mathematics, enhancing communication and mentoring skills.
- Led community service projects, fostering leadership and teamwork.

ACADEMIC QUALIFICATIONS

Master of Information Technology (First-Class Honours) | University of Waikato, New Zealand

BEng Honors in Software Engineering | University of Westminster, UK

EXTRACURRICULAR ACHIEVEMENTS

- **School Colours Award for Cricket (2018):** Recognized for performance in the Battle of the Blues (second-longest uninterrupted encounter globally, since 1879) between Royal College and S. Thomas' College, Sri Lanka.
- **Senior Prefect, Royal College, Colombo (2018):** Led school initiatives and mentored peers, showcasing leadership, responsibility, and problem-solving skills.
